Frame at comfort height 35 cm, fabric 3587, headboard 2 check patterned height 125 cm, fabric 3587, corner foot 2 brushed aluminium height 10 cm

A bed as unique as you

You can configure the cosy nights pure upholstered beds to make it just as you like it. High-quality fabrics in a range of colours offer you scope to customise the design. Choose from a classic bed frame with high sides and a boxspring appearance or a more refined-looking frame with a narrower edges. Combine this with one of four different headboards in different heights and round off your selection with a complementary foot design.

Boxspring bed at comfort height 25 cm, fabric 2770, headboard 2B check patterned height 125 cm, fabric 2770, corner foot 1 set back height 10 cm

Sleep soundly in complete comfort

You can enjoy the genuine comfort only a boxspring bed can provide thanks to the perfect balance between different components. The box with its integrated suspension base made of multi-zone pocket springs underpins the whole thing. On top of this, the pocket spring mattress is tailored to your sleeping needs and can also be covered in the same upholstery fabric as your bed. You can also add an extra touch of comfort to your sleeping surface with a soft and cosy mattress topper.

Innovation – for added value you can really feel

BodyContour technology

The cosy nights boxspring beds offer the best in sleeping lying and sprung support thanks to an integrated suspension base made of multi-zone pocket springs. The new BodyContour technology also adds extra value – and you can really feel the benefit. Incorporated into the box itself, the BodyContour technology is great for relieving strain and providing decompression in the shoulder and pelvic areas.

The level of support from the two zones can be adjusted separately and in stages to suit your particular body shape, such as whether you have broad or broad shoulders and how pronounced the contours of your hip and pelvis are. BodyContour technology is made up of three fibreglass-based double-flex suspension elements in the shoulder and pelvic areas. With the help of manually adjustable sliders, the firmness of the BodyContour sus-

pension can be altered to make these suspension elements swing up and down more loosely and freely. This provides palpable relief for your shoulders and optimally absorbs the pressure from your pelvis. Adjustments are simple to made and can be done at any time.

BodyContour technology makes it easy to adapt to your specific body shape and sleeping needs with a degree

of ergonomic precision you won't have experienced before in boxspring beds. It also keeps the box or mattress ideally ventilated. This innovative BodyContour technology is an exclusive extra option for the manually adjustable cosynghts boxspring beds.

Our mattress toppers for your boxspring bed

dream-away topper 

collection topper 

LATEX TOPPER

CORE AND COMFORT

Premium mattress topper made of pressure-relieving original Talalay 100% natural latex. Vertical perforated air vents with over 6,000 ventilation channels per square metre. Topper designed to be placed loosely on top of a mattress. Core height 5 cm, topper height approx. 8.5 cm.

VERSION GrandeHygiène 6135H

Cover: Piping-style design with Silverskin[®] for extra hygiene, all-round zip, washable up to 30 °C. **Upholstery:** Top 1,250 g/m² natural padding (Swiss virgin wool, Swiss alpaca wool, Tussah silk). Bottom 500 g/m² natural upholstery layer (Swiss virgin wool).

VERSION HypoAllergen 6135A

Cover: Piping-style design with all-round zip, washable up to 60 °C. **Upholstery:** Top 600 g/m², bottom 300 g/m² vegan temperature-regulating fibre padding (eco-fibrefill hollow fibre made from 100% recycled PES). Hypoallergenic.

GRAPHÈNE TOPPER

CORE AND COMFORT

Graphene mattress topper. Graphene combines memory foam with airy cold foam. It has a pressure-relieving, open-cell structure that is slightly viscoelastic and, while being enhanced with graphene means it can dissipate body heat more quickly and therefore has a cooling effect. Topper designed to be placed loosely on top of a mattress. Core height 5 cm, topper height approx. 7 cm.

VERSION GrandPlaisir 6125P

Cover: Piping-style design with all-round zip, washable up to 30 °C. **Upholstery:** 500 g/m² temperature-regulating padding (Swiss virgin wool, cushioning for comfort).

VERSION HypoAllergen 6125A

Cover: Piping-style design with all-round zip, washable up to 60 °C. **Upholstery:** 300 g/m² vegan temperature-regulating fibre padding (eco fibrefill hollow fibre made from 100% recycled PES). Hypoallergenic.

VISCO TOPPER

CORE AND COMFORT

Premium mattress topper made of viscoelastic Feelingpur with memory effect. Vertical perforated air vents with over 1,500 ventilation channels per square metre. Topper designed to be placed loosely on top of a mattress. Core height 5 cm, topper height approx. 8.5 cm.

VERSION GrandeHygiène 6136H

Cover: Piping-style design with Silverskin[®] for extra hygiene, all-round zip, washable up to 30 °C. **Upholstery:** Top 1,250 g/m² natural padding (Swiss virgin wool, Swiss alpaca wool, Tussah silk). Bottom 500 g/m² natural upholstery layer (Swiss virgin wool).

VERSION HypoAllergen 6136A

Cover: Piping-style design with all-round zip, washable up to 60 °C. **Upholstery:** Top 600 g/m², bottom 300 g/m² vegan temperature-regulating fibre padding (eco-fibrefill hollow fibre made from 100% recycled PES). Hypoallergenic.

POROTEX TOPPER

CORE AND COMFORT

Mattress topper made from light and airy Porotex Pro with pressure-relieving and elastic properties. Topper designed to be placed loosely on top of a mattress. Core height 5 cm, topper height approx. 7 cm.

VERSION GrandPlaisir 6126P

Cover: Piping-style design with all-round zip, washable up to 30 °C. **Upholstery:** 500 g/m² temperature-regulating padding (Swiss virgin wool, cushioning for comfort).

VERSION HypoAllergen 6126A

Cover: Piping-style design with all-round zip, washable up to 60 °C. **Upholstery:** 300 g/m² vegan temperature-regulating fibre padding (eco fibrefill hollow fibre made from 100% recycled PES). Hypoallergenic.
